

Marshall Elementary School

Small Group Counseling

Hello Marshall Families!

Fall Break will soon be upon us... and with the start of second quarter, Marshall Elementary's counseling small groups will begin! Small group counseling is a valuable part of Tucson Unified School District's comprehensive school counseling program and is available to any student who may benefit from the extra support.

Group counseling is especially beneficial for students whose emotions and behaviors may be affecting their learning and relationships here at school. Small groups give students a place to share their feelings and experiences in a safe environment. Participating students gain support from their peers and will learn and practice the skills needed to effectively communicate, cope, and succeed.

Counseling small group topics vary based upon the needs presented in our students—if you think your student may benefit from the support of a small group, or if you want more information about the groups we are offering this year, please click on the link to complete our **[Small Group Counseling Form](#)**. Or, copy and paste this link into your web browser: <https://forms.gle/VQuoVQWtcoZJmfVYA>

Thank you so much for your support of the counseling program at Marshall!
